36. App information (i.e. App Version, and other documentation)
37. Email the developer personally – and tell him how much you love the app ;)
38. The segues and transitions feel natural
39. Loading times are observably faster than many professionally made applications
40. Circulating wheels indicate when a page is currently loading or done loading

41. Easy page navigation as well as intuitive website navigation
42. Text sizing and spacing remain the same throughout the app to promote good readability
43. No Ads
44. We will never ask for you to make an account before, or in order for you to access our application

FEATURES COMING SOON / WANTED:

1. Download sermons to your phone
2. More user friendly giving
3. Fast Forward and Rewind a sermon playback (from Command Center)
4. RSS feeds
   a. Events
      i. Pull-Down to refresh
   b. LIVE YouVersion Events
   c. Verse of the Day
5. Text-2-Give
6. Embedded Audio Player
   a. FF, RR
   b. Time scrubbing
   c. Share button for current Audio Session
7. 3D TOUCH – (iPhone 6s and up ONLY)

KNOWN BUGS / ISSUES:

1. Downloads for sermons open in a separate "live broadcast" player. Used for Desktop only.
2. Tapping *Share* button in *Add Note* results in application crash in iOS 10
3. Opening Facebook in the *Social* page opens the Facebook view but if the user tries to open in the "Facebook App" it doesn't open in App – iOS 9 (Others?)
4. Sometimes "Finding User Location" doesn't work or won't find the user
5. The image at the top of the *Contact Us* page likes to slide about… up and down depending on how that view loads.
6. Sometimes *Open in Instagram* doesn't open in the Instagram App

DEVICE PERFORMANCE (Current Build):

RAM Usage (Max Performance):

Storage Size:

App Size: 27.9 MB
Documents & Data: ~ 15 MB

Total Usage Size on Device: 42.9 MB
